College of Physiotherapists of Manitoba

Canadian Institute for Health Information (CIHI)

What is CIHI?

The Canadian Institute for Health Information (CIHI) collects and provides health information. Health information is used to inform policy, management, care and research which leads to more equitable health outcomes for people living in Canada. Click here for more information about CIHI.

The College of Physiotherapists of Manitoba (CPM) collects and discloses personal information to CIHI in aggregate form. CIHI uses aggregated registrant information:

- for health system uses, including statistical analysis and reporting; and
- to support the management, evaluation or monitoring of the allocation of resources to, or planning for, the health care system in Canada, including support for the improvement of the overall health of people living in Canada.

How CIHI protects your data

CIHI describes how it protects the aggregate data it receives from CPM at this link: Privacy and security

If you have questions about CIHI's privacy and security practices, please contact the Chief Privacy Officer directly at
